

## 2024-25 Verification of Non-filing Form

If you have not, or were not required to file a tax return with the Internal Revenue Service (IRS) for the 2022 tax year you will need to provide the KCC financialaid office with a signed and dated statement explaining why you did not file, and how you supported yourself.

For example if you received less income for the year than you are required to file taxes on, or if you received SSI and are not required to file.
