6	Testing Center staff support the college's mission in serving not only academic students, but members of the Klamath Basin community, and as was seen during the pandemic, our greater "world community." Center staff provide quality services, pursue excellence through certification and training, actively engage the community through promoting testing services, and have their eye on future potential through expansion of testing offered, and staff and department capacity.	1/4/2022 9:57 AM
7	The testing center has become an integral part of the college. It is run with precision and professionalism.	12/15/2021 10:36 AM

4	Not a large number of goals to be met. Did meet the most important and only goal.	1/6/2022 4:49 PM
5	Very goal driven and directed. Continually expanding services	1/6/2022 4:30 PM
6	There are likely goals that are not included in this - for example, budget, strategic plan, etc.	1/6/2022 2:13 PM
7	Were there any other goals that were met or not met according to the strategic plan? Might be useful to state either case.	1/6/2022 11:50 AM
8	Center staff, as was discussed during the presentation, have set long-term goals in anticipation of growth and succession strategies.	1/4/2022 9:57 AM
9	Testing center is open 11 hours a day or by appointment.	1/3/2022 11:02 AM
10	Only one goal was stated, but this was accomplished. I would suggest goals for the next five years aligned with stakeholder need. This may require some way to solicit stakeholder need. The new goals as presented are works already in progress and/or short term. It does not appear stakeholders were or are to be solicited.	12/20/2021 3:06 PM

2	Stated that they wanted to have a full time proctor, and a part-time position to answer the phone.	1/10/2022 5:32 PM
3	Kudos to the team in continuing to accomplish all that they do! As described, however, while it sounds like there are enough trained persons to manage "day to day" operations under normal circumstances, one FTE bearing the bulk of responsibilities/certifications/allied credentialing (even with good supervisory and part time support) is problematic from a long term sustainability standpoint. At least one additional FTE staffer seems like a prudent investment.	1/10/2022 9:05 AM
4	Need to account for absences, burnout, retirement, and vacations. A department can run too lean.	1/7/2022 11:41 AM
5	There is a plan to address staffing issues. The review indicates specific staffing needs and I hope these needs will be considering in the upcoming budget process.	1/6/2022 4:49 PM
6	Excellent staff and leadership	1/6/2022 4:30 PM
7	Staffing for this area continues to be problematic. Higher salaries may need to be negotiated to recruit and retain.	1/6/2022 2:13 PM
8	The testing center needs more proctors to help during peak time. Possibly have a full time proctor to give the Testing Center Coordinator more flexibility.	1/6/2022 11:50 AM
9	"it would be helpful to have one of our part-time proctors move to full time status" is hardly a recipe for improving sustainability as the testing center grows its services. Taking care of employees needs to be a bigger part of the picture	1/6/2022 10:50 AM
10	The center has an adequate number of well-qualified personnel, and although it is "very lean, efficient and well organized," it would not be able to provide the same level of service if more	1/4/2022 9:57 AM

than one staffer was out for a prolonged period of time. This is also compounded by high staff turnover. As stated in its goals, the Center would benefit from an additional staffer to cover "surge" times when there is high demand for testing. The goal of having staffers complete one term of Spanish is commendable, but testing center customers would be best served by someone who is bilingual, and bicultural.

11	Concern for when the coordinator is sick or retires.	1/3/2022 11:02 AM
12	There is a plan in place to provide additional employee support.	12/22/2021 12:16 PM
13	Asking for more staff with a major decrease in total numbers of exams in last two years seems to be a bit of a disconnect. It is obvious Covid has had an impact, but the numbers would indicate that staff should have more time to handle the non-testing functions of the testing center with less proctoring going on.	12/20/2021 3:06 PM
14	Barb is a wonderful testing center coordinator. But, the need to someone else to be full time and qualified is fast approaching.	12/15/2021 10:36 AM

2	The documentation showing what staff had been trained would have been great.	1/10/2022 5:32 PM
3	Good overview of trainings and knowledge expectations. My question is: are these predominantly just responsive to what the center is testing for in the moment, or are there opportunities that the team is strategically pursuing that would draw additional students/sector partners to the college. Again, for sustainability, memberships in associations (NCTA) should be held by the institution, or at least by MULTIPLE members of staff (agreeing with the statements in the written review).	1/10/2022 9:05 AM
4	Excellent discussion of the Testing Coordinator's certifications and professional development during the presentation, but a listing of these certifications would have helped the program review.	1/7/2022 11:41 AM

7	Finding excellent employees that will remain and provide continuity is an issue that the department needs to address. One suggestion is to ask for budget increases to more easily attract and retain talent.	1/6/2022 2:13 PM
8	Have a full-time proctor who could also gain certification for some of the test that are provided by the testing center.	1/6/2022 11:50 AM
9	I would address the high turn-over rate. Moving a part-time proctor to full-time may fix this, or possibly hiring additional part-time staff for peak testing times.	1/6/2022 11:13 AM
10	Testing Center has grown into a vital resource for the region, not just for the campus. Even though there are succession plans in the works, especially with Barb's 3-year retirement horizon, succession planning still makes me uneasy. It seems to me that we need to budget for employing another someone with appropriate degree qualifications now, so that hire can take place in the next year. The second item of concern is that Barbara is making flyers, making copies, and hand-delivering them. Her efforts are excellent and to be applauded, but I am a bit sorry she needs to do it. To be realistic, our Testing Center is now in a good position to be a serious competitor to all those private sector testing centers on the I-5 (north-south along west coast) and I-84/I-90 (east-west) corridors. Our talented staff and excellent facilities deserve a professional grade marketing plan and marketing services/materials both in paper and online. Flyers, posters, a dedicated website - these need to rival the private sector centers in quality and distribution. She shouldn't have to say "we try to get the word out." Do a Google search for Oregon testing centers -- SOU, OIT, and COCC show up, but we do not.	1/6/2022 10:50 AM
