

Dear Student,

Thank you for your interest in Klamath Community College's Nursing Assistant Training Course (HEA 100). HEA 100 is a 5-credit course designed to prepare students for the Oregon State Board of Nursing: Certified Nursing Assistant (CNA) exam and workforce at an entry level position. Course components include classroom lecture, skills lab, and clinical practice in a healthcare setting.

This course is no longer web restricted. Current students may apply online. If you will be a first-time credit student at KCC, speak with a Student Services Representative for information about admissions, financial aid, and transferring credit for any college work completed elsewhere. You can stop by Student Services or call 541-882-3521 with questions.

Once the registration requirements are met, and you will be approved to register for the class and join orientation on the first day of class. Orientation contains date and time of sensitive steps. So please read the information carefully, be proactive about the requirements. You must complete a CPR class for health care providers by American Heart Association prior to clinicals. Immunizations, TB testing, background check and drug screens need to be completed at the required times. Enrollment is limited and on a first-come, first-serve basis. Contact Student Services, or me, with questions that may arise. Best wishes as you begin a new adventure!

Sincerely,

Marylin Culp, RN
Nursing Assistance Program Director
Klamath Community College
