Associate of Applied Science at Klamath Community College
Articulated with the BA/BS degree in Digital Cinema at Southern Oregon University
2020/21 Academic Year

About the Program
The Associate of Applied Science (AAS) in Digital Media Design has been developed with the cooperation and support of Southern Oregon University (SOU). The degree is fully articulated with SOU's Digital Cinema program and allows students to transfer directly as juniors at Southern Oregon University with no loss of credits to pursue a bachelor's degree

Students should contact the SOU Digital Cinema program early in the first year of their KCC AAS program to be advised about additional requirements and procedures for admission to the school or program.

Students should be aware that if they transfer before completing this degree, their courses will be evaluated individually toward the general education requirements in effect at SOU.

Entry Requirements
Students are required to take the college placement test to determine skill level and readiness indicated by test scores. As part of their training program, students must begin with the courses within their skill levels as determined by placement test scores. In addition, students may also be required to enroll in classes that would increase their employability and success.

Students who graduated from high school or completed a high school equivalency program in 1997 or after must have the following requirement for admission to a four-year Oregon state college or university: 1) two years of the same high school-level language, or 2) two terms of college-level language with a grade of "C-" or better (may be first-year language which can be used as elective credits). Students planning to complete a Bachelor of Arts (BA) degree at a four-year school will be required to complete the equivalent of one year of study of a foreign language at the second-year level (or above) before graduation.

Advanced Standing
Coursework from accredited colleges and universities will be accepted in accordance with college policies. A maximum of 24 "Professional/Technical" credits are transferable to SOU, and will be counted as elective credit. To ensure coursework is current, program courses over 5 years old must be reviewed and approved by the appropriate department head before being accepted toward course requirements.

Graduation Requirements
The Associate of General Studies degree through KCC will be awarded to students who complete all credits in this program with a grade of "C" or better. Some required courses may be graded on a pass/no pass basis. A grade of "P" for these courses indicates a student earned a "C" or better grade.
