If yes which one(s)?

What accommodations do you use in everyday life to help you manage your disability?

Accommodations given:

Other Comments

Are you interested in additional support through KCC's Inclusive Career Advancement Program (ICAP)?

ICAP students are connected to an on-campus career coach and a job counselor through DHS Vocational Rehabilitation. This support team can provide individualized academic and career coaching/check-ins to support students navigate classes, connect them with resources based on their needs, and assist them in pursuing career options post-graduation. Students can meet with the career coach as often as they would like/need. If you mark yes, you are giving permission for the on-campus career coach to contact you.
